Education

Universitas Mulia Balikpapan

Bachelor of Computer Science, Computer Science. GPA 3.7

Thesis – SmartRT Pariwisata – Software Development (Backend Developer)

Balikpapan, Indonesia

August 2021

Experience

Sekolah Kristen Yahya

IT Staff – Fullstack Developer

Bandung, Indonesia

February 2021 - Present

- **SIAY (Sistem Informasi Akademik Yahya)**

Led the development of a comprehensive academic system handling student registration, allowances, and academic records. Integrated Midtrans for payments and an Indonesian Province Static API. Tech Stack: Laravel, Bootstrap, phpMyAdmin.

- **SKY SIMPEG**

Developed an HR management system for employee data management. Streamlined operations with Laravel, phpMyAdmin, and SBAdmin.

- **Inventory Management System**

Created an asset tracking system to manage and monitor school facilities. Deployed with Laravel 8, Bootstrap, and phpMyAdmin.

- **Daily Report App**

Delivered an internal IT task management system, enabling users to log daily tasks, respond to assigned tasks, and generate weekly/monthly reports. Built with Laravel, Laravel UI, and phpMyAdmin.

- **Yahya Learning Management System (LMS)**

Deployed Moodle-based LMS for online course management, improving student and teacher engagement with digital education.

- **Yahya IT Tutorial Website**

Developed a WordPress-based platform providing IT troubleshooting tutorials for staff, simplifying issue resolution for both hardware and software.

- **Main School Website (Maintenance)**

Continuously maintain and enhance the WordPress-based main school website, ensuring functionality and up-to-date content.

- **Yahya Creative Space**

Launched a platform for students to publish and showcase creative projects like digital art, photography, and more, promoting creative learning.

Certification

BuildwithAngga

Online Course

Complete Product Management: Vision, Strategy, and Framework

29 April 2023

- The online program covered how to completely manage a product and bring the product developed from the concept, until it released to the market.

Mastering Laravel 8 for Beginners & Intermediate: Bangun Website Bootcamp

21 February 2024

- This course focused on developing a website for a bootcamp using Laravel 8. Key skills included implementing **OAuth Google authentication** and integrating a **payment gateway** for seamless user registration and payments. The course also covered essential back-end development, database management, and deployment.

Skills & Interests

Technical: Laravel Framework, TailwindCSS, Bootstrap, Filamentphp, Voyager, Jetstream, MySQL

Language: Indonesian (Native), English (Intermediate)

Interests: Fullstack Development, UI / UX Design, BuildwithAngga Online Course
